NAVIGATING THE PORTAL

Great! Your account/profile is created and you have successfully logged in.

Welcome to the CT Partner Hub!

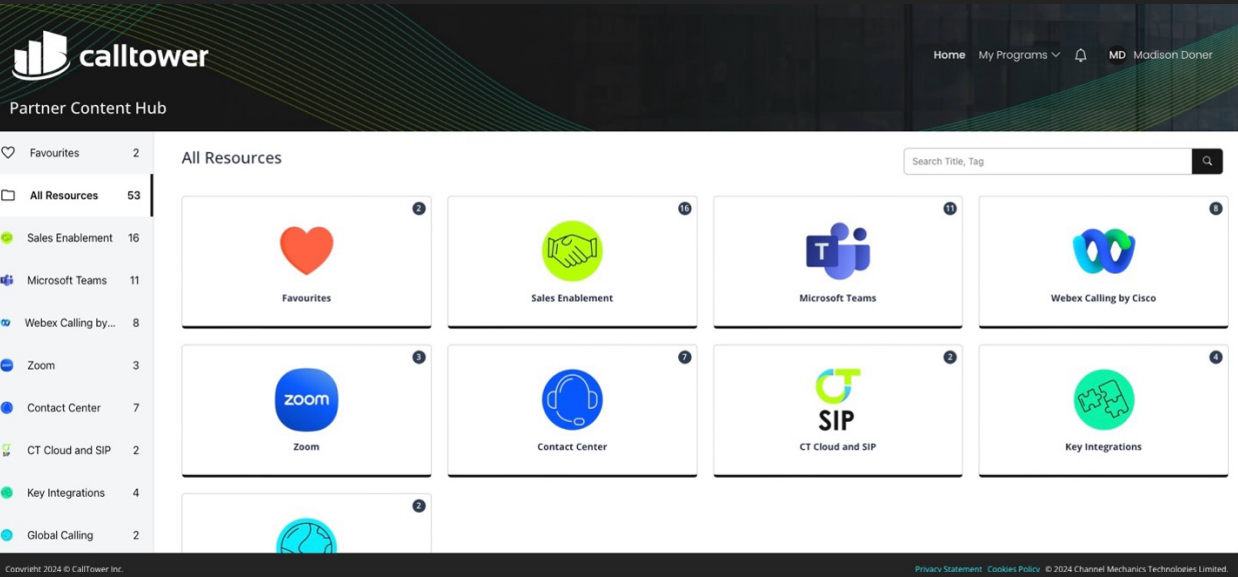

Below your welcome including your name you will see a dashboard with options like Messages, Content Hub, and Deal Registration.

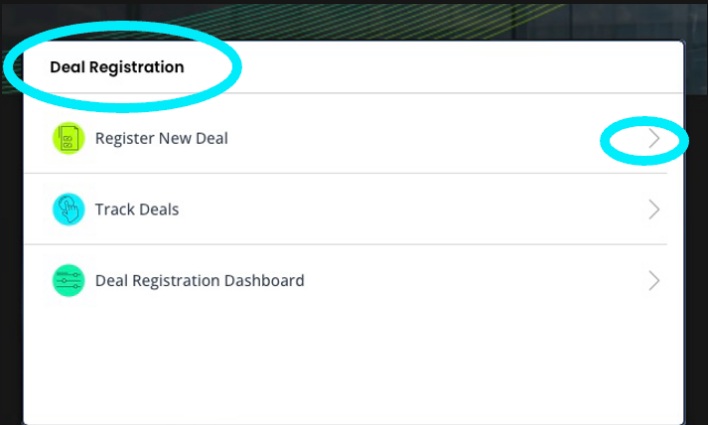

First you will find our revolving Messages, these will change from time to time as we curate new and important content. This serves as a quick way to get to our newest and most educational pieces.

Secondly, you will see our Content Hub. This will have all the educational pieces we've created. They are organized by capabilities/platforms. Once you find some pieces you keep referring to or think are helpful you can favorite them for easier access! All these pieces can be downloaded and shared. If you'd like any co-branding please reach out to mdoner@calltower.com.

Lastly, on the dashboard is all the information related to Deal Registration. Here you can register a deal, track deals already registered, and see a custom dashboard with data and analytics on your deal registration activity.

When registering a deal please enter as much information as possible. If a field is required but you are unsure of what to put please just put N/A. If you are unsure of your CallTower Contact, you can check out our Global Sales Map (found in our content hub) or put N/A and our team will assign you correctly.
